

Technical drawing of a rectangular plate. The overall dimensions are 900 (width) by 900 (height). The plate is divided into four equal sections by three vertical lines. The width of each section is 300. The drawing includes dimension lines and section lines (indicated by tick marks) to specify the geometry.

Technical drawing of a rectangular layout, likely a floor plan or a table layout, showing dimensions and a grid structure.

Horizontal Dimensions (Top):

- Total width: 2400
- Segment widths (from left to right): 560, 640, 640, 560

Vertical Dimensions (Right):

- Total height: 1100
- Segment heights (from top to bottom): 137, 826, 137

Grid Structure:

- The layout is divided into a grid of cells by orange lines.
- There are 4 vertical columns and 3 horizontal rows.
- The columns are defined by the horizontal dimensions: 560, 640, 640, and 560.
- The rows are defined by the vertical dimensions: 137, 826, and 137.
- The central area (826 high) is further subdivided by a horizontal line, creating two rows of height 413 each.

Technical drawing of a basketball court layout. The drawing shows the court dimensions and key areas. The total width is 1510 and the total length is 2200. The key areas are defined by a width of 410 and a radius of R645. The free-throw line is at a distance of 580 from the key. The three-point arc has a radius of R180. The drawing also shows the center circle and the three-point arc.

Technical drawing of a rectangular plate with a central hole and semi-circular ends. The overall width is 4000 and the overall height is 2000. The central hole has a diameter of 1200. The semi-circular ends have a radius of 1200. The drawing includes dimension lines and tick marks indicating the 4000 width, 2000 height, and 1200 diameter.
